

LED Flex Neon 12V 50m Roll 6W/m

Light color

Rouge

Technical Specification

|                                          |           |
|------------------------------------------|-----------|
| Brand                                    | Optonica  |
| Dimmable                                 | No        |
| Lumen maintenance at end of service life | 70%       |
| On/Off Cycles                            | 25 000x   |
| Warranty                                 | 2 Years   |
| Energy Efficiency Label                  | G         |
| IP                                       | 65        |
| Color Designation                        | Red       |
| Input voltage                            | DC: 12V   |
| Life span                                | 25000h    |
| Instant On                               | 0.1 s     |
| Flux                                     | 300 lm/m  |
| LED QTY                                  | 120 SMD/m |

|                    |               |
|--------------------|---------------|
| Beam angle         | 120°          |
| Temperature        | -20C/ +40°C   |
| Product Code       | ST12-A2       |
| Energy Consumption | 6/m kWh/1000h |
| LED Type           | SMD 2835      |
| Material           | Flex PC       |
| Power per meter    | 6W/m          |
| Roll               | 25 m          |
| Weight of Product  | 0.135 kg/ m   |
| Dimension          | 16x8 mm       |
| EAN Code           | 3800156645943 |
| Light Color        | Rouge         |
