

### Tube LED T5 Sans Bouton Interrupteur

**Power**  
9.6 W

**Light color**  
Lumière  
blanche

## Technical Specification

|                                          |              |
|------------------------------------------|--------------|
| Beam angle                               | 120°         |
| Brand                                    | Optonica     |
| Correlated Color Temperature             | 6000K        |
| Dimmable                                 | No           |
| Input voltage                            | AC220-240V   |
| IP                                       | 20           |
| Items per pack                           | 1            |
| Life span                                | 25 000 Hours |
| Lumen maintenance at end of service life | 70%          |
| On/Off Cycles                            | 25 000x      |
| Ra ≥                                     | 80           |
| Warranty                                 | 2 Years      |
| Energy Efficiency Label                  | E            |

|                     |                 |
|---------------------|-----------------|
| Items per box       | 30              |
| Flux                | 900 lm          |
| FLUX per watt       | 94 lm/W         |
| Material            | Plastic         |
| Instant On          | 0.1 s           |
| Temperature         | -20°C/ +40°C    |
| Color Designation   | White Light     |
| Operating Frequency | 50-60 Hz        |
| Product Code        | TU10-A4         |
| EAN Code            | 3800156655072   |
| Energy Consumption  | 9.6 kWh/1000h   |
| Power               | 9.6 W           |
| Light Color         | Lumière blanche |
